Quoting Options for Documentation

The following is a table designed to allow our customers to select the Documentation Option that best suits their needs and/or requirements.

Option #1

One (1) Basic Technical Operations Manual

- General Safety
- Start-up/Shut down Sequence
- Spare Parts Lists
- Maintenance Schedule/Actions
- All PLC Programming Disks
- Mechanical Prints & Electrical Prints*
** Electronic copies and hard copies (11" x 17" format)*

One (1) Vendor Reference Materials Manual

- Cut Sheets assembled in 3-ring binder

Option #2

One (1) Technical Operations Manual, including all items in OPTION #1 and:

- Sequence of Operations
- Definitions of Operator Control Panel features with graphical depiction
- Troubleshooting/Faults Listing
- Human Machine Interface screens with definitions
- Color photos of Changeover Tooling, with Changeover Procedures
- Calibration Procedures (if applicable)

Option #3

This option is used for all systems built by Micro Instrument Corp that require **CE Marking**.

One (1) Technical Operations Manual, including all items in OPTION #2 and:

- CE Technical File
- CE EHSR (Safety) Checklist
- CE Mark Production Run Letter(s) and Photos

Standard Option

If no documentation option is purchased, Micro Instrument Corp will provide:

- Mechanical Prints & Electrical Prints**
- Cut Sheets assembled in 3-ring binder

*** Electronic copy only, as applicable*
